Ordering

Placing orders:

To place an order email the order to PEFordering@pef.org.

All items in this catalog are USA-made products. Substituting items within this catalog is not permitted. Requesting a new item not listed in this catalog is honored as long as it is a USA- and/or Union-made product. The new item request will be submitted to the vendor for verification as a USA- and/or Union-made product. The PEF Communications Department is only responsible for orders placed by them. If the requester places an order by themselves, the Communications Department is no longer responsible for that order; including payment of the invoice. However, the PEF Communications Department will supply any artwork needed.

Artwork:

The Communications Department will design and supply artwork upon request at no extra charge. Detailed logo/insignia tend to be unrecognizable when reduced in size. Keeping the logo/ insignia design as simple as possible results in a better-looking design. The graphic artist will advise if the design requires any changes to accommodate the application used for the imprinting, such as embroidery or direct ink.

How to place an order:

When placing an order the following information is required:

- Item description (what follows the word "Item" in each product)
- Page number
- Quantity
- Color
- Sizes (if applicable)
- Division Number

Canceling or changing an order: Once an order has been placed the order cannot be changed or canceled.

Division ordering:

Before an order can be placed, please forward Division Council approval (meeting minutes, email vote, appropriate budget line item) to kfurman@pef.org for the expenditure.

Change of item and/or quantities will result in a new quote.

Before placing an order, please ensure that you have received approval for this expenditure from your Division Council.

Bulk ordering:

Bulk orders will be initiated by the PEF Communications Department only. When a bulk order is requested, a deadline will be established for all orders in the group. This is to ensure consistent pricing. The deadline will be determined by the popular demand of an item and the production timeline of the vendor.
