Provider:	Location:
MicroKnowledge	Virtual - Zoom
SLMS Search Number:	Registration Deadline:
5433 or Click here to register (sign in required)	Tuesday, 12/28/21

This two-session (each 3 hours in length) virtual workshop covers the basics of SQL to effectively transform information contained in databases into information that is usable by report writers, web sites or other mediums. Lectures and exercises will focus on extracting and manipulating information from databases through SQL. Microsoft SQL Server Management Studio will be used, and the workshop will be delivered virtually using Zoom. Each participant is required to participant in both sessions.
