

## Find the Generations

Look around the room. You will see 10 “stereotyped” statements posted on the walls. Each statement is often associated with at least one of the four generations we find in our worksites.

Each generation is listed below. In your group, move about the room and choose two statements that are often associated with a particular generation.

Do you feel these statements apply? If so, why do feel that way? Examples: What have you seen in your worksite? What have you experienced in working in an inter-generational setting?

Why can this be a challenge when it comes to working with various generations on a Health and Safety Committee?
